Castelo, Jr., Rogelio "Roger" P. Juan, Diorella Maria G. Sotto, Donato C. Matias, Eric Z. Medina and Ricardo B. Corpuz.

WHEREAS, the Local Government Code of 1991 (Republic Act No. 7160) grants every local government unit the power and authority to promote the general welfare within its territorial jurisdiction, including the promotion of the health and safety of its constituents; ✓

WHEREAS, the Toxic Substances and Hazardous and Nuclear Wastes Control Act of 1990 (Republic Act No. 6969) provides that it is a State policy "to regulate, restrict or prohibit the importation, manufacture, processing, sale, distribution, use and disposal of chemical substances and mixtures that present unreasonable risk and/or injury to health or the environment; to prohibit the entry, even in transit, of hazardous and nuclear wastes and their disposal into the Philippine territorial limits for whatever purpose; and to provide advancement and facilitate research and studies on toxic chemicals";

WHEREAS, Republic Act No. 6969 defines Hazardous Wastes as "substances that are without any safe commercial, industrial, agricultural or economic usage and are shipped, transported or brought from the country of origin for dumping or disposal into or in transit through any part of the territory of the Philippines" and as "by-products, side-products, process residues, spent reaction media, contaminated plant or equipment or other substances from manufacturing operations, and as consumer discards of manufactured products";

WHEREAS, the Department of Environment and Natural Resources (DENR) Revised Procedures and Standards for the Management of Hazardous Wastes (Revising DAO 2004-36) (DENR Administrative Order No. 2013-22) classifies Used/Waste Cooking Oil and Grease trap Waste Oil, including sludge, as a hazardous waste;

WHEREAS, based on scientific studies, reusing any type of cooking or vegetable oil more than twice creates free radicals which increases the likelihood of heart disease, high blood pressure, and other ailments. On the other hand, grease trap waste contaminates water bodies and clogs drainage system if not properly disposed and treated.
