WHEREAS, Rule 7, Section 3G of the Implementing Rules and Regulations of the said law states that the Office of the Civil Defense is tasked to formulate Standard Operating Procedures for the deployment of Rapid Damage Assessment and Needs Analysis teams, information sharing among different government agencies, and coordination before and after disasters at all levels;

WHEREAS, Rapid Damage Assessment and Needs Analysis (RDANA) is a training course intended to determine the immediate impact of the disasters and cater to the priority needs of the people. In general, RDANA works by providing a quick "snapshot" of the disaster situation. It also serves as a basis for recommending the need for international assistance, if necessary;

WHEREAS, Section 21 of R.A. No. 10121 provides for the Local Disaster Risk Reduction and Management Fund. Not less than five (5%) of the estimated revenue from the regular sources shall be set aside as the LDRRMF to support disaster risk management activities such as, but not limited to, pre-disaster preparedness programs including training, purchasing life-saving rescue equipment, supplies and medicines, for post-disaster activities, and for the payment of premiums on calamity insurance.
